Palomino Lakes Mutual Water Company on February 19, 2022, Meeting Minutes

PLMWC Board Members:

David Taber, President

Brenda Thomas, Treasurer

Edwin Acosta, Secretary

Community attendees participated in person. David Taber led the meeting.

Item 1: Financial Overview

- Due to the water restrictions the revenue has decreased for the last year. However, the water company has adequate available funds for operations and for maintenance through the end of the year. The water company understand the current situation we are facing with COVID and other factors that might affect some of our residents. The board will provide a detailed financial summary at the next annual meeting.

Item2: To reinstate the Bi-Weekly Readings

- Approved unanimously

Item 3: Spare well pump needed for Tank #1. Cost is 8K

- Approved unanimously

Item 4: Edwin to attend County Wide Regional Funding Program Solicitation.

- Edwin attended this seminar and find out that State Water Board has identified a need for regional programs that address drought-related and contamination issues for state small water systems (states malls) and domestic wells serving disadvantaged communities (DACs) and low-income households. They will use a medium household income to determine funding. We do not qualify for it.
